Field Technician – (7-30-18)

GeoTest Services, Inc. provides high level geotechnical engineering, environmental, special inspection, construction materials testing, and building science services. Exceeding 25 years in business, our team is known as an industry leader in the Pacific Northwest. The firm is seeking an individual with a college degree in a related field for this entry level position.

The successful candidate will perform routine to complex sample pick-up and delivery of construction material samples in accordance with ASTM standards for laboratory testing. The person will observe construction activities on both small and large construction sites during the earthwork phase of the project. The position requires excellent verbal and written communication skills, and the ability to thrive in a “hands on” environment with limited supervision. We seek an enthusiastic individual who is goal oriented and seeks growth opportunities. 40 hrs/week with OT as necessary. Salary D.O.E. All inquiries are confidential.

Specific Duties to Include:

- Drive to various project sites to pick up construction materials in accordance with applicable standards (ASTM, AASHTO, etc.)
- Perform inspections and testing for earthwork projects. Duties are likely to entail compaction testing and observations of soils and asphalt. Duties may also include observation of piling (drilled piles, driven piles, and rammed aggregate piers).
- Coordinate with manager and administrative staff to troubleshoot issues
- Perform other business functions as directed to support our operations

Required Qualifications:

- Excellent driving record is a must
- Reliable vehicle, good communication skills (verbal and written) and positive attitude
- Excellent organizational skills
- Ability to take direction; work well with others and independently
- Working knowledge of construction techniques and trades is a plus
- Ability to maintain various equipment is a plus
- Nuclear gauge training and gauge safety certificate a plus (Troxler)

Physical Requirements:

- Ability to lift 50-70 lbs from a standing, crouched or kneeling position, repeatedly.
- Ability to carry 50-70 lbs in the form of sample bags, buckets, equipment, cylinders, wheelbarrows, etc.
- Ability to stand on a hard surface for 8 or more hours per day.

- Ability to sit or drive for 2-4 hours per day.
- Ability to periodically lift equipment, buckets, tools on uneven terrain.
- Ability to periodically walk and carry sample bags/buckets, tools on construction sites, gravel pits, open fields and/or uneven terrain.
