## **Geotechnical Engineer – (7-30-18)**

GeoTest Services, Inc. provides high level geotechnical engineering, environmental, special inspection, construction materials testing, and building science services. Exceeding 25 years in business, our team is known as an industry leader in the Pacific Northwest. The firm is seeking a geotechnical engineer.

The successful candidate will perform geotechnical engineering services on a wide array of project types. The position requires excellent verbal and written communication skills, and the ability to thrive in a “hands on” environment with limited supervision. We seek an enthusiastic individual who is goal oriented and seeks growth opportunities. Salary D.O.E. All inquiries are confidential.

### **Specific Duties to Include:**

- Use engineering education, training, and experience to solve geotechnical engineering problems including slope stability, retaining wall design, and site-specific challenges.
- Plan and supervise soil sampling programs. Interpret soil properties and characteristics as they relate to the planned development.
- Perform calculations and support with summaries of calculations. Prepare cost estimates and monitor project budgets.
- Communicate with project team members including architects, engineers, owners, and contractors.
- Prepare geotechnical reports including figures for review by management.
- Coordinate with manager and staff to troubleshoot issues.
- Perform other business functions as directed to support our operations.

### **Required Qualifications:**

- Bachelor’s degree in Civil Engineering, Geology, Geotechnical Engineering or relate field
- Zero to six years of related experience. Proficient in soil mechanics
- Able to meet the physical requirements outlined below
- Excellent driving record is a must
- Able to work effectively in teams
- Reliable vehicle, good communication skills (verbal and written) and positive attitude
- Excellent organizational skills
- Ability to take direction; work well with others and independently
- Working knowledge of construction techniques is a plus

### **Physical Requirements:**

- Ability to lift 50-70 lbs from a standing, crouched or kneeling position, repeatedly.

- Ability to carry 50-70 lbs in the form of sample bags, buckets, equipment, cylinders, wheelbarrows, etc.
- Ability to stand on a hard surface for 8 or more hours per day.
- Ability to sit or drive for 2-4 hours per day.
- Ability to periodically lift equipment, buckets, tools on uneven terrain.
- Ability to periodically walk and carry sample bags/buckets, tools on construction sites, gravel pits, open fields and/or uneven terrain.
