All inquiries are confidential

GeoTest Services, Inc. provides a comprehensive suite of services to assist our clients with their project needs from design throughout construction completion. Services include geotechnical engineering, environmental, special inspection, construction materials testing, and building science services. Exceeding 25 years in business, GeoTest participates in some of the most interesting development projects in our region. Our company maintains three offices and two accredited construction material laboratories.

GeoTest is seeking to fill a Laboratory Technician position in the Arlington, WA office. This position provides support to the field testing and inspection staff as well as project managers and other project participants by facilitating laboratory testing and preparing reports. The Laboratory Technician maintains an efficient lab which processes samples in a timely fashion to support project completion. The position performs primarily lab work, with periodic field work, depending on the needs of the organization. This support position reports to the Laboratory Supervisor and responsibilities and duties may vary depending on season, workload, and the needs of the Company and our clients.

Qualifications:

- Must have a high school diploma or equivalency.
- Preferred certifications/qualifications include (GeoTest provides support to obtain certifications, if necessary):
 - ACI Laboratory Concrete Testing Technician – Grade I Certification.
 - ACI Field Testing Technician – Grade I Certification
 - Other laboratory certifications through ACI, NICET, or WAQTC.
- 1 to 2 years' experience in a construction-related field preferred. Ability to read construction plans and specifications is a plus.
- Ability to obtain access at refineries as directed. This will include obtaining a Transportation Worker Authorization Card (TWIC) and enrollment and compliance in both Occupational Safety Council of America (OSCA) and DISA Global Solutions. Refineries are a Drug Free Workplace and require specific drug screening.
- Strong organizational, computer, and math skills are required.
- Clean driving record is required.
- Ability to work outside, work independently, and be a self-starter.
- Able to travel to construction project sites and maneuver over rough and uneven terrain.
- Effective oral communication skills are required. Must be able to effectively communicate test results and observations with internal and external stakeholders in a timely fashion.

- Effective written communication skills are required. Must be able to accurately document test results and observations. Reports must be clear and concise, while using proper grammar.
- Lift 50-70 lbs from a standing, crouched, or kneeling position, repeatedly.
- Carry 50-70 lbs in the form of sample bags, buckets, equipment, cylinders, or wheelbarrows, periodically.
- Stand on a hard surface for 8 or more hours per day.
- Sit or drive for 2 to 4 hours per day.
- Lift equipment, buckets, or tools on uneven terrain periodically.
- Walk and carry sample bags/buckets, tools on construction sites, gravel pits, open fields, and/or uneven terrain periodically.

GeoTest offers a challenging work environment with a comprehensive compensation and benefits package.
